- Overseeing comprehensive administrative tasks, managing school events, and handling high-volume paperwork. Responsible for coordinating logistics, streamlining processes, and ensuring smooth execution of projects."

SKILLS

HTML5/CSS3, Boostrap, GIT, SQL, Javascript, ReactJS, Java, Python, PHP:

PROJECTS

JUAN AI *HTML/CSS, JAVASCRIPT*　　　　https://juan-web-based-artificial-intelligence-assistant.vercel.app/
"Juan is an AI-powered assistant designed to provide a variety of services. He can share trivia about Filipino heroes, suggest travel destinations and local cuisines in the Philippines, and offer recommendations when you're out of ideas. For researchers, Juan can retrieve related literature and studies through ERIC to assist with research papers. With built-in computer vision capabilities, Juan can also identify a person's age and gender within seconds, offering fast and reliable analysis."

Weather Wise *HTML/CSS, JAVASCRIPT*　　　　　　　　https://weatherwise2.netlify.app/#/current-location
"This web application monitors real-time temperature, humidity, visibility, and wind pressure. It also features an air quality index to assess pollution levels and a sunrise/sunset indicator, making it a valuable tool for planning outdoor activities based on environmental conditions."

AWARDS

Technical Support Fundamentals　　　　　　　　　　　　　　　　　　　　　　　　　Google
"Completed IT Support Fundamentals course, focusing on IT troubleshooting, hardware, software across multiple operating systems, and IT support etiquette. Developed a strong foundation in essential IT skills, preparing for advanced studies in networking concepts."　　　　　　　　　　　　　　　　July 2024
